MARKET NEWS
NEW YORK, Sept. 10.—The stock
market was reactionary at the outset
of today's session, strengthening
and becoming more active later,
but lapsing into its early apathy at the
irregular close.

Sentiment continued to be sustained
by success of the French loan, un-
related investment conditions but this
was balanced if not largely offset by
the lack of speculative interest, save
among professional traders.

The money market imposed no re-
straints, demand loans opening and
renewing into the coming week at 7
per cent and declining to 6 per cent in
the final dealings.

Foreign exchange followed its re-
cent trend, remittances on London
making a further decline.

Sympathetic heaviness was mani-
fested by French, Belgian, Spanish and
German bills. Cables from London and
Paris confirmed advices of an exten-
sive gold movement to this market.
Trading in stocks was a professional
affair throughout, with the usual set-
tlement of week-end contracts.

United Fruit cancelled a considerable
part of yesterday's gain on an unofficial
denial of larger dividend rumors and
American International reacted mod-
erately for similar reasons.

Pools were most active in oils on the
long side of the market, with Mexican
petroleum as the leader. Coppers de-
veloped sudden strength on declaration
of regular dividend by the Porphyry
company, but steel, equipments,
motors and rails showed no definite
trend. Sales amounted to 415,000 shares.

Foreign issues continued to feature
the bond market, the new French loan
rising to a premium of one per cent
on the curb but the Liberty group
eased, 400,000 shares, par value, aggre-
gated \$5,500,000. Old United States
bonds rose 1/2 per cent on call, others
unchanged.

BRADSTREET'S WEEKLY
NEW YORK, Sept. 10.—Bradstreet's
weekly publication, "The Bradstreet
Divergence Influence, price uncer-
tainty and advance of the fall season
are visible in the trade and industrial
situation resulting in a curious con-
current effect upon observers' conclu-
sions but on balance it may be said
that a little more optimism is dis-
played as to the future and volume of
trade." Reports from manu-
facturing districts, too, are slightly
better. The tone of collections too,
shows a slight improvement and crop
reports are better.

Weekly bank clearings were \$6,
